VICTORY BOND ADVERTISING STUNT

Citizens Awakened Monday Morning to Find the Store Windows and Sidewalks Covered With Victory Bond Advertising

Some time between sunset on Sunday and sunrise on Monday a stealthy gang of painters and decorators crept along Main St. and in their wake they left a trail of red paint on the sidewalks and white paint on all the plate glass windows.

When the early morning workers hustled along Main St. to the munition plants to begin their day of toil making fodder for the big guns, they were horrified to see the words "BUY VICTORY BONDS" staring up at them on nearly every square of sidewalk, while on the windows were all kinds of mottoes pertaining to the different store keepers business and underneath in big letters "BUY VICTORY BONDS." No matter where a man looked he was confronted with "BUY VICTORY BONDS."

The citizens were amazed at the novel advertising stunt and thought the hallowe'en boys had been up to their pranks again, but nevertheless they could not and can not get away from that sign "BUY VICTORY BONDS." The town is plastered with it, no matter where you see it.

The motto on the different windows were as follows, and show that whoever committed the dastardly deed did their work well.

WELLAND AUTOMOBILE PARTY STRUCK BY H. G. & B. CAR

Four people are badly injured and a brand new automobile machine is smashed up as the result of an accident at the top of the Thirty Hill early on Tuesday morning.

About eight o'clock Mr. John Crosby, cattle dealer of Welland, and his family approached the crossing of the H. G. & B. on top of the hill going west, and when half way across the tracks, and were struck by a westbound H. G. & B. freight car. The machine was turned upside down and rolled over two or three times before coming to rest. There were seven people in the car at the time. Mrs. Crosby suffered a broken hip and leg. Miss Crosby was badly cut about the head and face and a son was badly cut about the head. Little Miss Crosby is suffering from injuries to her limbs, the other occupants of the car escaped with a bad shaking up.

The car had the top up and side curtains on and when the driver was within forty feet of the track stopped his car and looked both ways. He did not see anything and did not hear a whistle from the freight which the crew claimed they sounded. When the driver saw nothing approaching he started up again and the back end of the car was on the tracks when hit.

CHRISTIAN CHEER FOR A CHINESE HOSPITAL IN FRANCE

Dear Mr. Editor,—

I am in receipt of a copy of a letter from a Canadian Medical Missionary to the Chinese, who is serving at the front, asking if anything can be done to aid the staff in their effort to bring Christmas cheer to the patients of the Chinese General Hospital, France. It is, of course, a government institution but the staff are mainly medical men who have left their work in the various denominational missions in China and have gone over with the Chinese troops who are going through every day by the thousands.

The staff feel that the treatment accorded the many Chinese serving in France will be of tremendous moment to the cause of missions, on the return of these men to their own land. The following is from Dr. Gray's letter: "In most of our Military Hospitals an effort is made to give every individual sick or wounded soldier some little token of good will on that day. The Chinese are far from home, and have come over here throwing in their lot with us to help us win the war, and as you heard, they are doing their part very well and bravely. I am very anxious to have our Hospital a bright and happy spot on Christmas Day, and if your friends could send us some useful gifts such as comforters, gloves, socks and

things like mouth organs, pipes, notes, watch chains, 'housewives' passes, etc., they would be greatly appreciated by grateful recipients and these gifts would cheer them up considerably.

Yours faithfully,
G. O. Gray, Major, R.A.M.C.,
Commanding Chinese
General Hospital,
R. E. F. France.

I am publishing the above appeal in the hope that some of our local societies may be able to send at least a small parcel which should be addressed in care of Major Gray. If there are any who desire to help individually, contributions of money or any of the gifts specified may be left at Miss Woolverton's, Mountain St., this week and a parcel will be packed and shipped from there.

Thanking you for this space in your paper,
Yours sincerely,
LEILA A. METCALP.

OVER THE TOP FOR VICTORY BONDS

**Everybody Must do Their
bit—Bells and Whistles Pro-
claimed the Opening of
This Big Campaign
Here on Monday
Morning**

Canada's big Victory Loan campaign started at nine o'clock on Monday morning and it was ushered in all over the Dominion in a most auspicious and noisy manner. GRIMSBY did its share to get the campaign away to a big start and we feel sure that the old town will finish the job in handsome style.

Sharp at nine o'clock the whistles on all the factories in town started to blow and the big town bell on the INDEPENDENT building started to ring and this with the sounding of numerous automobile horns proclaimed to the world at large that the big campaign had started. The bells and whistles sounded for several minutes.

The VICTORY LOAN committee in GRIMSBY is comprised of H. H. Marsh, Captain; W. F. Randall, C. W. P. Carpenter and Thos. W. Allan. Mr. Marsh is also Captain of all the captains in the western end of Lincoln county.

The committee are now at work and are putting forth strenuous efforts to make the sale of bonds in GRIMSBY and North GRIMSBY a large one. They have secured the old Union Bank offices in the Bessinger building from Mr. Bessinger, free of charge and have opened up headquarters there. Some one will be in the office all the time to give you all the information that is possible regarding this loan and to hand out literature regarding it.

It is up to every one who can spare even the price of one bond to do so. You are not giving your money away, you are not investing it in risky

**MONEY TO THE GOVERNMENT.
EVERYBODY BUY VICTORY
BONDS.**

ACCIDENTAL DISCHARGE OF RIFLE CAUSE OF CHAS. WASNIDGE'S DEATH

The accidental discharge of a rifle in the hands of a friend was the cause of the death of Mr. Charles Wasnidge, who died from a bullet wound in the back, in Minden, Ont., last Wednesday morning.

Wasnidge, with his brother Fred and Mack Woods from Dundas, had left their camp in the woods early last Tuesday morning and a little later had reached the edge of a lake when a big flock of ducks passed overhead. Charlie fired two shots at the flock. Fred fired two shots at them and Woods had fired one shot. Woods raised his rifle to fire another shot and decided that they were out of range and lowered his rifle, as he lowered it, it accidentally went off and the bullet entered the back of Charlie, who was standing a short distance in front of Woods. The bullet apparently struck the spine as the deceased was immediately rendered helpless and paralysed.

Fred and Woods immediately secured a canoe and rushed him eighteen miles across the lake to Minden, where medical aid was secured, but in spite of all that could be done he passed away at two o'clock last Wednesday morning, being conscious right up to the last.

The remains were brought to GRIMSBY on the evening train on Thursday and taken to the parlors of J. C. Marlatt & Son, later being taken to the home of his parents on Ontario St.

The funeral took place on Saturday afternoon and was very largely attended by residents and old friends from this district. Services were conducted at the home by Rev. Mr. McLachlan. The floral tributes were many and beautiful, among the largest being a huge horseshoe from "The Neighbors" of the family.

Interment took place in Queen's Lawn Cemetery, the pallbearers being H. H. Farrell, C. T. Farrell, Ronald Ferris, Milton Simsek, Amos Fisher and Austin Loukes.

The late Charles Wasnidge was born near GRIMSBY 33 years ago and was the eldest son of Mr. and Mrs. Wasnidge, Ontario St. He had lived here practically all his life and was well and favorably known throughout this district. He learned his trade as a blacksmith and for several years conducted a very busy and successful business in his own shop.

He was an ardent sportsman and a great lover of the horse, having in his possession at the time of his untimely end, one of the best bred and speediest trotting colts in Ontario. For years he has been an adherent of the gun and was considered a dead shot with a sporting rifle. Every fall he took his shilay in the northern woods and never failed to come home with his lawful quota of deer.

Besides his parents he leaves two brothers, Frederick, of GRIMSBY, and Harry of Niagara Falls, N.Y., to mourn his loss.

OUR HEALTH BULLETIN

Conducted by Dr. R. A. Alexander, M. O. H.

TAKE NO CHANCES WITH SORE THROATS.

October, November and December are the worst months of the year for diphtheria. Take no chances with sore throats. At least depress the tongue with the handle of a spoon and inspect the throat carefully. If there is anything more than a general redness call in the doctor.

Remember if the sickness is diphtheria, every hour that the administration of antitoxin is delayed, increases the possibility of a fatal termination. Diphtheria antitoxin is distributed free by the department.

AUTOMOBILE TYPHOID

The *Minneapolis Journal* for August 20th, 1917, warns against the increase of typhoid among city dwellers, through their drinking, during automobile tours. Later which was polluted. During August, September, October and November, 1916, the typhoid cases in St. Louis totaled 429 as against 162 for the same period of years previous. Upon investigation it was found many of these cases of typhoid were among those who had motored out to the country immediately surrounding the city, and who had drunk of wells and springs subsequently found to be polluted.

KLIM

To judge from advertisements in the press, all that is necessary to reduce your milk bill is to resort to the use of a skimmed milk powder known as "Klim."

The manufacturers state that "a pound of Klim costs 35c and makes four quarts—less than a quart," but it should be remembered that this is four quarts of skimmed milk—milk from which the most expensive portion, which is the fat, has been removed.

Similarly the statement made by the manufacturer that "The food and nourishing value remain as they were in the original milk" cannot be accepted as true for the same reason that the fat has been removed.

In other words, for skimmed milk made from the powder the price is higher than the price of skimmed milk when purchased from the dairy at a quart.

Except upon the advice of a physician, skimmed milk powders should not be used for infant feeding because these products contain no fat.

CONDENSED MILK

Don't be foolish and substitute condensed milk for fresh milk. Milk today is the cheapest food we can buy, that is for a given sum we get more all round value from milk than from any other food.

In the press recently one woman was quoted as saying, "We will just stop buying fresh milk and use condensed milk." That woman thought she could save money by this process. To be frank she did not know what she was talking about.

Condensed whole milk at the current price costs 15c to get the equivalent of fresh milk at 12c a quart; this we have calculated from analyses made in our laboratory; furthermore, it is inferior in taste, and even when diluted according to the method prescribed has not the original ingredients in the proper proportions. Sweetened condensed milk particularly is a very poor food for young children, and often tends to produce scurvy, etc., even though the babies fed with it look fat.

By using condensed milk you increase the demand for it. In that way you encourage the condensing plants to buy more of the market milk coming to Toronto, and by decreasing our supply you tend to raise the price.

It is unreasonable to think that milk can be condensed, canned and sold to you at the price of unaltered milk.—(Toronto Health Bulletin.)

A New Privilege

Finance Minister Announces That All Victory Bonds May Be Registered

The following announcement has been made from Ottawa:—The Finance Minister of Canada has issued a new instruction in connection with the Victory Bonds, which will be of much benefit and importance to many small investors. He has decided to grant the privilege of the registration of all bonds, that is to say, that bonds of all denominations, including the \$25 bond, may be registered as to principal and as to interest.

In previous loans the privilege of registration was necessarily confined to bonds of the larger denomination, such as \$1,000 bonds or more. Bonds of lower denominations were issued as bearer bonds, with coupons attached, and while carrying equal benefits as to principal and interest were liable to being lost by the owner. Under the privilege now given by the Finance Minister, the buyer of any bond (whatever the denomination), may have it registered, in which case the interest will be paid by cheque, and the bond,

Ship your Fruit to—

GEO. B. HOUSE & CO OTTAWA, ONT.

A BONA FIDE WHOLESALE FRUIT HOUSE

Experience and facilities to get full value for all shipments
Rubber stamps supplied on request.

References: Bradstreets, Union Bank of Canada

If lost, may be replaced after proper evidence has been shown.
It is believed that this privilege will be greatly appreciated by many thousands of small investors, who will thus be assured of the absolute safety of their investment even against fire or carelessness or any other accidental cause of loss. This improvement in the issue will involve extra work upon the Department of Finance, but Mr. Thomas White considers that its benefit will more than offset the labor involved.

Sale of Inferior Feed Will be Prohibited

(Held over from last week)

Some time ago Mr. Jas. A. Livingston wrote to the Food Controller at Ottawa complaining of the fact that a large quantity of feed commonly known as "hog" was being sold at the feed stores all over the country to farmers and others and that this feed contained practically no food whatever, that it was nearly all either ground wood pulp or ground oat hulls. Cases were cited where animals which had eaten this feed had died and many other animals which had refused to eat it had been taken sick.

Samples of this feed were sent to the office of the Food Controller and under date of October 31st, Mr. Livingston received the following letter which is self explanatory:

Office of the Food Controller,
Ottawa,
October 31st, 1934

Dear Sir,—
Your letter of Sept. 28th, also of Oct. 20th, has been brought to my attention by Mr. French. We find a great many cases similar to yours whereby feed is being sold in Canada under analysis with which when brought into practical use falls away below what is represented. This is a serious matter to the farmers of this country and was fully discussed at a meeting of delegates from all the western Provinces which sat here last Saturday and again on Monday. A recommendation has been made to deal with this question, and am glad to say that such action will be taken as will prohibit the sale of this stuff in Canada.

The sample that you sent will be analyzed at the Experimental Farm, and we will write you the result.

Yours very truly,
JAS. D. McGRUBER.

J. A. Livingston, Esq.,
The Grimsby Independent,
Grimsby, Ont.

We would advise the farmers and fruit growers of this and every other district not to buy any feed at a feed store without first examining it very carefully and putting it to a practical test. This requires a very careful chop can be easily detected, one or two simple tests. One test is to put a small portion of it in the mouth and try to chew it. If it is spurious it will be found almost impossible to chew it as the sharp jagged or splinter will pierce the lips and the roof of the mouth. Another test is to take a small portion of the feed and wet it and spread it on a board or sheet of paper when it will be found to contain little or no ground grain but a large part either wood or oat hulls from the oatmeal mill. It is practically useless for feed and is a serious danger to the life of any kind of animal.

By the above letter from the office of the Food Controller it will be noted that it is the intention to prohibit the sale of this stuff in Canada but as there is no doubt a large stock of it on hand an effort will be made to work it off on the innocent or ignorant purchasers and it is up to everyone who wishes to buy feed to protect himself by testing the chop before he buys it.

ABINGDON

(Held over from last week.)
John and Mrs. Packham received a cablegram on Saturday, informing them that their youngest son, aged 22, had been killed in action on Oct. 22. He had enlisted with the 12th Battalion and has a brother in the trenches. The Methodist Church of which Earl was a faithful member had an Xmas box packed and sent on Saturday morning; also to all the boys of the township. Mr. and Mrs. Packham have the sympathy of a very large circle of friends.

CADET KIRKLAND

ONES TO GRIEF

(Held over from last week)

Lost on Lake Ontario in the obliterating snow storm and without gasoline with which to keep his engine running a Toronto aviator was forced to attempt a landing near St. David's, about two miles from Queenston, about three o'clock Wednesday afternoon. The result of the attempted landing was that the machine was partly wrecked but luckily the aviator escaped uninjured.

With machine C-370, the aviator left Toronto aviation field and was soon soaring above the clouds, then the snow began to fall and unable to distinguish his bearings the bird man kept on going until the gasoline supply ran low. Near St. David's he spied a large field, he descended and when about to land noticed a wire fence. When he noticed the fence he sent the machine rising and made an attempt to fly between a fence and telephone wires on the opposite side of the road. This was his undoing for the wheels of the machine caught in the fence and the machine fell to the ground. The result of the fall was a broken propeller, broken wheels and a slightly crushed frame. The eight cylinder engine was still in good condition as is the rear of the machine.

A representative of The Standard paid a visit to the scene of the accident last night. He found the machine lying alongside the fence one-quarter mile north of the point where the main road to Niagara Falls crosses to the right. The field in which the landing was attempted was plenty large enough for the purpose, as was also the field on the opposite side of the road. Residents of the Village state that the aviator often over the village four or five times looking for a suitable landing and then made for the field where the accident occurred.—St. Catharines Standard.

NOTE:—The above mentioned aviator is no doubt Cadet Kirkland, who landed here Wednesday noon. When he left here his intentions were to go right back to Toronto, but he ended up after circling around in the air above the race track three or four times.

CARSTOVILLE

(Held over from last week.)
Quarterly services will be held in this church next Sunday Nov. 11th at 11 a. m.

Daily Day was observed in the Sunday School last Sunday with a good attendance. Addresses were delivered by the pastor Rev. G. C. Raymer and Supr. Mr. Gordon Grant. The choir furnished special music. A meeting will be held next Saturday to make arrangements and begin practice for the Xmas entertainment.

A message was received on Saturday that Pte. Earl Packham had been killed in action. Pte. Packham is a son of John Packham of Abingdon and a brother of Mrs. A. E. Sharp of this place.

Mrs. Albert Shields recently spent a week in Toronto.

Phillips and Passmore have purchased another carload of cattle.

Miss Minnie Gort has returned to Niagara Falls, after spending a month here with her parents.

Jas. Shields had a car load of cattle shipped to him from Toronto last week.

The Young Peoples' Patriotic Society expects to start their weekly meetings for the winter season very soon. The following committee have been appointed to make arrangements this week: Wray Shields, Gordon Grant, John McDunnell, Rev. G. C. Raymer, Mrs. Allan Green, Misses Maymie and Lila Bell.

The regular meeting of the Calverton Women's Institute was held at the home of Mrs. Jos. Phillips on Tuesday afternoon, owing to the storm and the bad condition of the roads, there were only thirteen members present. Mrs. Allan Green was in charge. Meeting opened with the Institute ode, Mrs. McNeill acting as pianist. Mrs. Shields, the Secretary being absent, Mrs. Perry Park was appointed Sec. pro tem. The first item of business was appointing a delegate to the convention at Toronto. Mrs. A. Shields being appointed with Mrs. P. Park as alternate. Next on the other business was a social, an address and demonstration on First Aid and Bandaging was given by Miss Mamie House. This was followed by a reading by Mrs. Mary O'Neill, after which all the members joined in a discussion on the Care of Winter Vegetables. The collection amounted to 65 cents. The Institute has shipped 33 pairs of socks and 25 shirts this month. Meeting closed with the National Anthem. The next meeting will be held Nov. 27th, at the home of Mrs. John Hawkins.
